Experience

Freelancer - Nepal

2021

Frontend Developer

InfoClick Digital Solutions - Nepal

2022 - Present

Full Stack Developer

- Had the professional experience of working and collaborating with the team at IDS in the past.
- Positioned as a full stack developer at IDS, responsibilities encompassed contributing to diverse web development projects.
- At IDS, I showcased leadership skills by guiding junior team members through various aspects of web development projects.
- Contributed to various projects at IDS, including international websites, UI design, and inventory management systems.

Events

Hackathon

2022

Vertex Hackathon - Nepal

- Participated in the three-day hackathon called "Vertex Hacks" held on Kathmandu. Made an application named Agrostack.
- AgroStack, an agriculture app that speeds up deliveries, supports charity, and I contributed to its Node.js backend.
- Uploaded the project on GitHub to showcase the code and collaborate with other developers.
